RE: Request for waiver for an extension.

SPIN # 143035915 –TransTec

To Whom It May Concern:

We are a service provider and I am writing to request a waiver for an extension so that we can resubmit an invoice for FRN2354290, application #833025.

The reason for the request is we recently learned that a payment had been processed in October 2014 and it was processed to the bank account that was on the Form 498, however the banking information had changed since the Form 472 approval was done in 2013 and we never received the funds.

We have also consolidate our divisions under one company, DCi Technology Solutions, LLC, SPIN # 143048092 and we like to summit the invoice for above work under the DCi Technology SPIN # since DCi has a d.b.a of TransTec and the banking, routing contact and company officer information on the DCi Technology Solutions SPIN # is correct.

For these reasons we are requesting this waiver for the extension so that we can re-submit 472.

Regards,

A handwritten signature in black ink, appearing to read "Gary R. Eckert", is written over the printed name.
